8.1 Employee Organization Reports

SCTA- Nikki Milevsky shared that since the school Board
first met on January 18th they have met these times with the

work towards that. On Saturday, they will be attending the professional development summit in the Bay Area with Board Members and District staff. As we continue to move forward, Mr. Gladnev asked that we begin to see a reflection of the

urgency that we seem to carry every day, because with some of these babies there is no tomorrow without their advocacy and

resolution, and how we manage to get it uplifted in the society that we live in, will always be a concern to her. President Phillips really wants to appreciate the work that has been done, and also wants to highlight the need for this being pushed in a way that is revolutionary. It comes down to recognizing the racist education system, the way it has been designed to hurt our children, and Member Phillips is not sure how we can turn that on its head. Member Phillips shared that if the Board is going to be comfortable with the

changes that are going to be made and supported, they have to continue to reflect on the reasons for why we are where we are today.

Member Rhodes made a motion with a second from Member Phillips. The Board voted 5-0 with Member Pritchett and Member Villa absent, and a student preferential yes vote.

9.2 *Literacy, English Language Arts & Mathematics Update (Shannon Pella and Erin Hanson)*

Erin Hanson shared current District-wide supports and

investments in literacy, ELA & mathematics instruction and improvement, how we currently measure literacy, ELA & mathematics outcomes in SCUSD, and what our current

Jeane wanted to clarify that the state is not offering any matching school bonds.

Member Singh asked if we expect any opposition, and wanted to know if any bonds for our schools have been opposed in the past. If so, is there a specific group that opposed them.

Member Kayatta thanked Mr. Scott for his work. Member Kayatta shared that Measure H passed with 62% of the vote, and he is seeing similar polling results. Member Kayatta thinks that we can probably do better, because

projects to show that we were good at spending the bond money. Between then and now, Member Kayatta stated that we are building new schools, we have dramatically improved a lot of our schools all over the city, and we have

shown our community that we know how to invest on an equity basis. Member Kayatta thinks that this is the type of bond campaign that he thinks would be successful. There is a lot that goes into educating our kids and making them feel comfortable learning, excelling, and growing as people, but the physical facility that you learn in shows how much your community values you. Member Kayatta shared that this polling result is showing that the community does value this, and as a Board member and parent, Member Kayatta wants his kids learning in a

specifics on staff capacity and recommendations, and ensuring that we are being diligent and smart about where we are going to ensure that it would most likely pass.

SCUSD is in the process of adopting new instructional materials for secondary world languages. All this month, teachers, students,

we add the Community Schools Advisory Committee to the list of

meetings so they can bring their voice to our conversations as well.

Member Kayatta shared that the Sistrict is going to be forming a working group to look into the ConCap process. Last week, Member Kayatta had the opportunity to go up to Sly Park to visit some of the students on there and talk to some of the teachers on

there. Member Kayatta is really excited that we get to send our kids there. All the kids got to go at no cost this year, which was a one-time decision, but we can continue looking at ways to make it, so
